Maureen,

I have sent you an approval request for the emergency change for this job to be set up. SDM [34214](#)

Do I have permission to deploy in production?

**Subject:** MRP Job and Scripts

All,

Just to inform you all as to the status of the MRP Scripts and Job set up:

SDM [34184](#) – SQL Agent job (MRP)

Attached is the job script and test plan for setting this job up.

We will be dropping the job Update InvControl GtrStructureChange and creating the job Load MRP. The schedule for the job will be Mondays at four. The following are the steps for the job:

- 1) usp\_Update\_InvControl\_GtrStructureChange\_Company\_100
- 2) usp\_LoadHistory
- 3) usp\_LoadProfiles
- 4) usp\_LoadProfileStatistics
- 5) usp\_LoadPareto

I need to first have someone to give me approval that this job is set up correctly ([@Ben Erickson](#)) and since the Standard Change Control deployment won't be until 11/28/2022 due to a code freeze, I need special approval to get this in ([@Maureen Minard](#) I hear you were giving that out).

SDM [32702](#) – Forecasting Scripts in SysproCompany100

I'm currently waiting for access to Azure to work against better data. I just want to confirm that my suggestions will not skew the numbers in any shape or form.

I will write up a second email outlining my finding once I can get my testing done.
