So I may be looking at this wrong. But it looks like the job ran at 9:33 AM but then not again after that. Can you check again?

Meagan,

I found a bug in one of the sql procedures that runs the export. Sales Order Lines should be flowing now.

**Subject:** Order Line Items

Good Morning,

It looks like order line items are not linking or not being imported. From what I can tell this stopped happening on 12/9 when I noticed we were having the initial import issues.

Not sure if this is an issue with not sending the data or data not processing correctly in SugarCRM. Hoping you can advise.

Best,

**Meagan Frank**
