

SQL08

SysproCompany100

[trg_AdmSignatureLog_625100_AfterUpdate]
on [dbo].[AdmSignatureLog] after update

The trigger on the AdmSignatureLog, inserts a record on the SorMaster_Process_Staged table setting the SalesOrder, ProcessType, and OptionalParm1. The ProcessType = 0 for DisptachNotes automation.

[dbo].[trg_SorMaster_AfterInsert]
on [dbo].[SorMaster] after insert

[dbo].[trg_SorMaster_AfterInsert]
on [dbo].[SorMaster] after update

Both Triggers will process the current SorMaster record verifying that it has back ordered items and ready to process them. If the coniditions are valid, the trigger will inserts a record on the table SorMaster_Process_Staged setting the SalesOrder and ProcessType. The ProcessType = 1 for SCT/PO automation.
