Ben,

Attached is the test plan for SQL job and zipped sql objects.  
Let me know if you approve.

For review, here's the original request:

Can we get a SQL job setup to run the below script every 5 minutes from 7:00 AM to 7:00 PM Monday through Saturday? This is to address an issue we have found with the V8 upgrade where the value in a Syspro field is being doubled when updated. Script below will reset it to match the correct value.

```
UPDATE SysproCompany100.dbo.SorDetail
```

```
SET MStockQtyToShp = MShipQty
```

```
where MStockQtyToShp > MShipQty AND MShipQty >0
```
