appended with requester reply.

Requestor: Ben Erickson

Created Date: Sep 23, 2022 11:20 AM

Due By Date:

Description:

Justin,

I tested items 1 and 2 with no error. I realized Dale's process won't be affected until we remove the unused fields in Syspro which will be a later task for Richard. I'm good with this change going through.

Additional items to test if you can have Richard and Dale test:

- 1. "Create Cushion Stock Codes" application build a stock code that will create a new SKU
- 2. "SKU Builder" Applications build a stock code that will create a new SKU
- 3. Dale's import template for creating a new stock code manually

Request details are:

Title: Re: [Request ID:##32895##]: Syspro InvMaster+ Field Changes

Description:

Ben,

Just reaching out again to see if you have viewed the changes for this ticket.

Attached is the testing for the changes.

This is the devops link with the changes made: <u>link</u>

Assigned Technician: Justin Pope
Click here to view the request in the portal: https://servicedesk.summerclassics.com/app/itdesk/ui/requests/34904000020164001/details
For review, here's the original request:
Need the below changes to the InvMaster custom form fields in Syspro. These will require changes to the audit triggers on InvMaster+ and the related SysproCompany100_Audit tables and procedures which is why I didn't just assign it to Richard. While changing those, please modify to the audit triggers and tables to pickup any fields not currently included. The addition changes to field size, and deletion of fields has to occur via the Syspro Client.
1. Add new field: CushThreadColor text 30 characters
2. Increase the length of CSHCCP (CushionCustomCompont) to 30 characters
3. Remove following fields: CWFAB, CWLOC, CFFAB, CFLOC, WBFAB, STFAB, and NEWCAT
